Material UI

dsa

java

python

c programming

frontend

backend

## ACHIEVEMENTS

5 Star in DSA in Hackerrank

## CERTIFICATES

Full Stack Web Development

## PERSONAL PROJECTS

### PW Lms (08/2023 - 09/2023)

- I undertook the development of a comprehensive Online Learning Management System (LMS) website from the ground up. This project aimed to provide a robust, user-friendly, and scalable platform for educators, trainers, and learners to facilitate online education and training.
- Github Link - <https://github.com/rone66/lms>

### Blog Web App (07/2023 - 08/2023)

- I led the development of a dynamic Blog Web App, enabling users to create, publish, and share their content seamlessly. The app boasts a user-friendly interface, robust content management, social media, fostering a vibrant online community of bloggers and readers. This project showcases my web development expertise and commitment to enhancing user engagement in the digital sphere.
- Github Link - <https://github.com/rone66/blog-web-app>

### Weather WebApp

- I developed a Weather Blog Web App that leverages real-time weather data fetched from reliable sources. Users can effortlessly create and share weather-related content, including forecasts, observations, and travel tips.
- Github Link - <https://github.com/rone66/weather-App>

### Mini Projects

- I've developed a series of feature-based mini projects designed to showcase specific skills and functionalities. Each mini project focuses on a particular aspect of web development, such as frontend features or responsive design. These projects serve as a portfolio demonstrating my versatility and proficiency in various web development technologies and techniques.
