Netaji subhash engineering college

08/2016 - 10/2019   *CGPA-6.64*

Courses
- Bachelor

Full Stack Web Development
PW Skills

01/2023 - 10/2023

Courses
- MERN Stack

PERSONAL PROJECTS

PW Lms (08/2023 - 09/2023)
- I undertook the development of a comprehensive Online Learning Management System (LMS) website from the ground up. This project aimed to provide a robust, user-friendly, and scalable platform for educators, trainers, and learners to facilitate online education and training.
- Github Link -https://github.com/rone66/lms

Blog Web App (07/2023 - 08/2023)
- I led the development of a dynamic Blog Web App, enabling users to create, publish, and share their content seamlessly. The app boasts a user-friendly interface, robust content management, social media, fostering a vibrant online community of bloggers and readers. This project showcases my web development expertise and commitment to enhancing user engagement in the digital sphere.

Weather WebApp
- I developed a Weather Blog Web App that leverages real-time weather data fetched from reliable sources. Users can effortlessly create and share weather-related content, including forecasts, observations, and travel tips.
- Github Link - https://github.com/rone66/weather-App

Mini Projects
- I've developed a series of feature-based mini projects designed to showcase specific skills and functionalities. Each mini project focuses on a particular aspect of web development, such as frontend features or responsive design. These projects serve as a portfolio demonstrating my versatility and proficiency in various web development technologies and techniques.
